Manatee Fun Facts

- **Manatees are Gentle Giants**

Manatees are big, friendly animals that can grow up to 13 feet long and weigh as much as a car—but they're super gentle and love to swim slowly.

- **They're Related to Elephants**

Believe it or not, manatees are distant cousins of elephants! They even have tiny "toenails" on their flippers.

- **Manatees Love Salad**

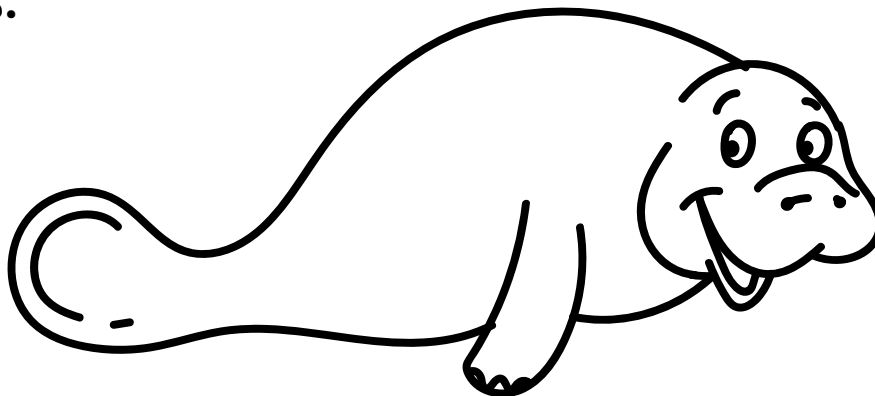

Manatees eat plants like sea grass, algae, and water lettuce. They munch on about 100 pounds of food every day!

- **They Like Warm Water**

Manatees are tropical creatures and prefer water that's at least 68°F. In winter, they gather near warm springs or power plant outflows to stay cozy.

- **Manatees Have No Front Teeth**

Manatees don't have sharp teeth! They have flat molars in the back of their mouths for grinding plants.
